ABOUT US

事实FACTS | 洞见INSIGHT | 影响IMPACT

前海国际事务研究院（以下简称“研究院”）成立于 2020 年，是一所政策研究与学术研究并行、实践探索与理论建构互促、智库与学院协同发展的非营利性综合研究机构。

研究院在香港中文大学（深圳）与深圳市前海管理局的联合支持下，立足深圳、放眼全球，由政治经济学家、香港中文大学（深圳）教授郑永年领衔，联合来自全球的专家学者，历经五年磨砺，已成长为一所专注于为区域及国家的战略发展提供政策分析、理论研究、人才培养、交流平台的思想重镇，国际影响力不断提升。

愿景

我们以“研究世界、探索前路、体认天理、经世治平”为理念，积极发挥智库“知”与“行”之间的桥梁作用，致力于做国家决策的建言者、理论创新的推动者、思想舆论的引导者、社会共识的凝聚者和前沿发展的诠释者。

核心任务

我们的核心任务是帮助决策者在“不确定”的世界中寻找“确定性”。通过对世界上痛点、难点、热点问题的科学研究与分析，为政府、企业等更多决策者提供理论框架与可行性建议，以改善地方、国家、世界的政策与治理。

与此同时，通过构建学术、学科和话语三大系统，建设中国哲学社会科学自主知识体系，在国内与国际社会上塑造强大的话语权与叙事力。

主要工作

- **学术研究：提供原创、前沿、中立、客观的理论分析**

  我们的所有研究都基于对关键全球问题公正的评估、对包容开放思想的承诺、对数据与事实的严谨调研，从而产生原创的、前沿的、中立和客观的理论与分析。

  我们的研究从全球视角出发，聚焦中国政治经济学、国际关系与对外政策、全球发展与治理、经济政策、产业政策、科技创新与可持续发展、规则标准与涉外法治、企业出海、粤港澳大湾区、海洋经济、南方共同市场等领域。立足中国、放眼世界、面向未来，着力构建中国自主知识体系。

- **政策咨询：为决策者提供可行性建议**

  我们为政府、企业等决策者提供理论框架与可行性建议，以改善地方、国家、世界的政策与治理。我们每年报送百余篇政策报告，其中多数被中央和各级地方政府所采用。

  我们持续承接和推进来自政府、企业、高校等委托的重要课题，推进多个重点研究基地的建设，为中国制定相应的战略和政策提供理论和现实依据。

- **国际论坛：打造国际交流平台**

  我们打造政策、理论、人才培养相结合的国际交流平台，通过对不同主题的深刻讨论与思想碰撞，促进学术与政策对话、中国与世界对话。

  “海纳百川，有容乃大”，我们以此为理念创办自主学术活动品牌“海纳讲座”和“百川论坛”，旨在为国内外的思想者提供一个广阔而包容的平台，通过集思广益、思想碰撞，为新时代中国发展注入思想动能，为人类命运共同体贡献中国力量。

- **智库传播：凝聚社会共识，构建中国的国际话语权**

  通过“媒体、网站、出版”传播矩阵，我们打破国际壁垒，向学界、政界、大众传播中国的声音、亚洲的声音和来自世界各地的声音。

  我们的自主新媒体品牌“大湾区评论”，致力于打造一个具有国际视野、提供深度内容的集权威性、前瞻性、多元性于一体的思想交流平台。我们的出版物，包括书籍《中等技术陷阱》《前海模式》《产业政策变革》等，解析国内与国际政策变化，洞见关键全球问题与现象。

- **教育培训：致力于培养下一代政策领导人**

  我们与香港中文大学（深圳）公共政策学院形成智库与学院的有效互动与协同，助推政策研究与学术研究的深度融合和相互促进，致力于培养公共政策与领导力方面的专业人才。

  我们举办主题性质的政策培训班，就国际关系、内政外交、公共政策、城市管理、可持续发展等主题对粤港澳大湾区乃至全国的相关部门公务员或企业高管进行培训，助力各个领域的领导者提升所需的技能和策略。

公共政策的建言者 → **原创知识的构建者** → **理性思维的倡导者** → **多元观点的汇聚者** → **未来人才的培育者**

院长致辞
DIRECTOR'S MESSAGE

在四十多年的改革开放中，我们国家不断推进实践创新、理论创新、制度创新，成就了从起飞、转型到跨越的“中国奇迹”。今天，世界正经历风云激荡的“百年未有之大变局”，全球治理挣扎在维护多边主义和全球秩序的民主化与各自为政、自身利益至上的反全球化两大力量博弈之中，碎片化严重，国际规则重新制定的速度加快、难度加大。

作为一个兼容学术性思想库和政策研究型智库的社会科学综合性科研机构，前海国际事务研究院自创立以来，以“研究世界、探索前路、体认天理、经世治平”为理念，坚持原创的、独立的、世界领先的学术研究，探索民族性、国家性、世界性的重大问题，积极推动认识中国和认识世界的研究与学术交流平台的建设。

在各级政府和香港中文大学（深圳）的支持下，研究院招揽了一批具有国际视野、跨领域经验和专业前瞻性的国际化、创新型、专业性人才。在运营模式上，研究院探索“学术 + 政策 + 咨询”三方结合，且学术研究和政策研究并重的道路，设立以“深度研究”为导向的研究团队，以“项目管理”为框架的研究小组，并组织年度主题国际学术研讨会，建立国际化访学制度，开拓原创性学术研究。在发展目标上，研究院致力于提供高度专业化的研究，并打造跨越学科边界的、开放的知识交流氛围，成为人文社科原创性知识发展的“核心发动机”。

在这里，我感谢各位同仁的付出和努力，也感谢多方给予我们的关注和支持。我相信，如同历史上那些重要的学术机构一样，我们正在也将持续不懈地、无惧无畏地探索我们的未来、中国的未来和世界的未来。

CENTRE FOR POLITICAL ECONOMY

社会科学理论源于对社会经验实践的提炼，现有社会科学体系的源头是西方的历史和实践。对西方理论削足适履式地应用，不能科学地解释中国自身历史与实践，反而会造成思想观念的混乱。缺乏理解中国社会自身的理论工具，会使得构建基于中国实践经验之上的知识体系变得困难，而理解中国迫切需要这样一套社会科学知识体系。只有校正视角，才能在中国问题、中国命题里找到中国方案。政治经济学研究中心聚焦于中国历史、中国实践，从真实的中国历史经验和实践出发，建设中国的社会科学知识体系。

科技创新与可持续发展研究中心

CENTRE FOR TECHNOLOGY INNOVATION AND SUSTAINABLE DEVELOPMENT

科技创新与可持续发展，创新是手段，发展是目的，两者相辅相成、缺一不可。一方面，可持续发展是高质量的发展，关键在于创新，即可持续发展需要是基于科技创新的发展；另一方面，科技创新已经不仅仅是一个经济或技术问题，更是一个社会和政治问题，科技创新需要是面向可持续发展的创新，即在考虑科学技术和商业价值的同时也要关注其社会和环境影响。在此背景下，科技创新与可持续发展研究中心将建成以研究网络、学术期刊和资讯中心三大平台为基础的，面向政策研究、学术研究、政府咨询和专题培训“四位一体”的学术型智库中心。研究中心将面向联合国《2030 年可持续发展议程》中提出的 17 个可持续发展目标（SDGs），围绕以下七大议题展开政策和学术研究：

1. 中等收入陷阱、中等技术陷阱与体制创新和改革（SDGs 目标 8 和 9）
2. 逆全球化、供应链重组与产业创新和升级（SDGs 目标 8 和 9）
3. 大国博弈、科技围堵与技术创新和突破（SDGs 目标 8 和 9）
4. 气候政治、“双碳”目标与绿色创新和发展（SDGs 目标 12-15）
5. 能源革命、智慧能源与能源创新和转型（SDGs 目标 7）
6. 数字革命、新型基础设施与城市创新和智慧城市（SDGs 目标 11）
7. 两极分化、共同富裕与负责任创新和公正转型（SDGs 目标 10 和 16）

规则标准与涉外法治研究中心

CENTRE FOR REGULATION AND GLOBAL GOVERNANCE

规则标准与涉外法治研究中心的核心使命，在于汇通古今融汇东西，围绕国内法治的完善和涉外法治的构建两大主题，从跨学科研究与大数据实证分析的路径，为学界贡献前沿研究、为业界提供合规指导、为政府提供战略咨询。

立足于粤港澳大湾区，规则标准与涉外法治研究中心的重点研究领域，将集中于国内法治、涉外法治，以及国别立法人工智能分析三大方面。我们充分利用大湾区特殊的区位与政策优势，通过企业合规报告、学术成果出版和可行性政策建议，以及高端人才培训与学术政策交流，促进政、企各主体之间的沟通与协同，统筹国内与涉外法治，完善规则与标准等制度型开放，维护多元、稳定、有序的国际经济格局和经贸关系。

企业国际化研究中心

CENTRE FOR ENTERPRISE INTERNATIONALIZATION

在我国高水平制度型开放、“一带一路”、双循环等国家战略驱动下，中国企业的全球化之路正在迈入一个以构建跨国公司为目标的崭新阶段，出海战略正从一些企业原本的“可选项”逐渐转变为“必选项”，甚至部分行业面临“不出海，就出局”的紧迫局面。随着越来越多的中国企业参与国际市场竞争，其在海外经营中面临的涉外事务和风险管理变得日益复杂。一方面是需要持续应对跨文化管理、品牌建设、人才资源、法律合规等多方面、差异化的市场挑战；另一方面，由于全球地缘政治局势和在地国内部政治的深刻变化，企业的海外业务越来越多地受到贸易摩擦、单边制裁、在地国政治等非经济因素的冲击，迫使企业增强政治洞察力和非经营层面的应对能力。

为应对这一新形势，企业国际化研究中心旨在整合政策研究界、政界和商界资源，为出海企业提供发声渠道、深度研究以及交流平台，为各级政府部门提供政策咨询，并促进国内相关研究领域快速发展，从而更好地服务于中国企业的国际化进程和国家战略需求。

学术出版

《IIA政策分析报告》

政策报告是我院为中央和地方各级政府提供决策建议的最重要产品之一，选题广涉外交内政：对外关注大国关系、国际冲突与合作等；对内关注经济发展、科技战略、人才建设等。本系列报告为内部期刊，兼具时政热度和学术深度，理性、深入地剖析全球与当代中国现状。

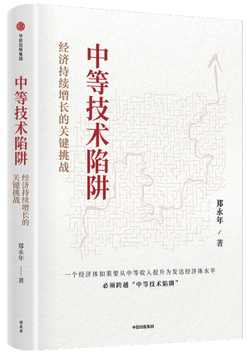

《亚洲政经评论》英文学术期刊

Asian Review of Political Economy是我院联合上海交通大学国际与公共事务学院和上海交通大学政治经济研究院主办的一本全英文学术期刊，由郑永年教授担任主编。本刊力求促进全方位理解亚洲及其他地区的政治经济，围绕传统和新兴的政治经济议题，鼓励跨学科研究，发表有理论创见和政策导向的研究成果。涵盖的主题包括但不限于发展、分配、金融、贸易、投资、产业和技术以及新兴的全球安全挑战。

《中等技术陷阱：经济持续增长的关键挑战》

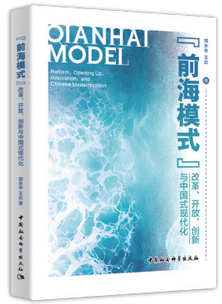

中国改革开放所取得的伟大成就，很大程度上依赖于内部现代化和外部全球化的互相加持，但面对当下外部环境随时发生重大变化的现状，如何实现高质量发展，完成下一阶段现代化的目标，已成为摆在我们面前的课题。在此背景下，郑永年教授及其团队基于国际和国内发展经验与教训，通过对欧美、亚洲的日本和“四小龙”（韩国、新加坡、中国台湾、中国香港）发达经济体以及拉美与亚洲那些长期陷入中等收入陷阱的经济体的比较分析，创新性地提出“中等技术陷阱”概念。本书对“中等技术陷阱”展开详细论述，指出在科技进步层面，中国想要跨越“中等技术陷阱”的发展逻辑，为未来经济建设和发展提供可行性思路。本书由中信出版社出版。

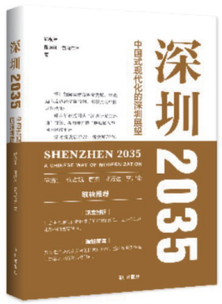

《“前海模式”：改革、开放、创新与中国式现代化》

前海是中国式现代化的一个最有代表性、最具典型意义的鲜活案例。“前海模式”是高质量发展的“新三大法宝”——改革、开放、创新的生动实践。前海深港现代服务业合作区作为新时代国家级重大战略平台，如何依托香港、服务内地、面向世界，为中国式现代化贡献力量，是一个重大而现实的课题。本书从制度创新驱动发展、中央与地方联动、现代服务业新体系建设、深化深港合作以及前海新城建设等方面出发，展现前海十余年来改革、开放与创新的全景。由“前海模式”破题，以中国式现代化的全面实现为点睛之笔，为讲好“前海故事”提供重要经验与启示。本书由中国社会科学出版社出版。

《深圳2035：中国式现代化的深圳展望》

在本书中，郑永年教授携团队提出要建设“地域嵌入型”国际经济平台，探讨新发展阶段、新发展理念、新发展格局背景下社会主义现代化的基本内涵及深圳的历史使命，深度剖析社会主义现代化指标体系的构建和实现社会主义现代化路径的国际经验，聚焦国际、国家、大湾区和深圳发展四层面阐释深圳对中国式现代化的重要意义，展现中国在世界百年未有之大变局中的大国担当。本书由深圳出版社出版。

学术交流平台
HAINA & BAICHUAN

“海纳百川，有容乃大”，研究院以此为理念创办自主学术活动品牌**“百川论坛”**与**“海纳讲座”**，旨在为国内外的思想者提供一个广阔而包容的平台，通过集思广益，积厚流广，为新时代的中国发展注入思想动能。品牌在社会各界影响力不断攀升。活动被人民日报、光明日报、新华社等国家主流媒体广泛报道，累计阅读量逾千万，受到社会各界热切关注和理性讨论。

海纳讲座

景山恢诞，韵与道合。形器不存，方寸海纳。为了给公众打造更广阔的交流平台，**“广纳万川入海，博采千家众长”**，以启智润心、切磋争鸣，研究院推出**“海纳讲座”**活动品牌，每年一讲，聚焦国际形势、内政外交、改革开放、创新发展等诸多时政热点内容，邀请相关领域顶尖专家、学者进行主题演讲。直面时代话题，提供兼具现实性和学理性的深度解读，让公众了解相关领域的前沿动态、全球局势及我国的应对举措，以期启蒙生省，推动社会共识。海纳讲座已举办五期，邀请了郑永年教授、刘晓明大使、崔天凯大使、黄奇帆先生、Jeffrey Sachs教授、沈向洋院士、颜宁院士作分享，均产生良好的学术讨论与社会关注。

郑永年：共同富裕必须是包容式、开放式的发展

光明日报客户端 光明日报全媒体记者 党文婷 2021-12-15 12:13

改革开放以来，中国促成8亿人口脱离绝对贫困，创造了世界经济史上的奇迹。曾经“让一部分人先富起来”是改革开放的主题，为中国企业的发展提供了有利的政策环境，让企业成为中国社会经济可持续发展的主体。如今“共同富裕”已经成为新时期经济发展中最重要的议题之一，也将决定和影响今后中国企业发展的政策环境。

基于此，12月13日下午，香港中文大学（深圳）全球与当代中国高等研究院暨前海国际事务研究院举办了首期“海纳讲座”。本期讲座聚焦“共同富裕与中国企业发展前景”这一主题，由香港中文大学（深圳）校长讲座教授、人文社科学院代行院长、全球与当代中国高等研究院院长、前海国际事务研究院院长郑永年教授作为主讲人，为在场来宾分享他对“共同富裕”的解读，并为中国企业未来的发展提出更多

ABOUT US

FACTS | INSIGHT | IMPACT

The Institute for International Affairs, Qianhai (hereinafter referred to as the "Institute") was established in 2020. It is a non-profit comprehensive research institution whose roles as a think tank and a place of education complement each other, where policy research and academic research go hand in hand, and real-world exploration and development of theory are mutually reinforcing.
With the joint support of The Chinese University of Hong Kong, Shenzhen (CUHK-Shenzhen) and Management Bureau of Qianhai Shenzhen-Hongkong Modern Service Industry Cooperation Zone, the Institute is based in Shenzhen and takes a global perspective. Led by Director Yongnian ZHENG, a political economist and Professor of CUHK-Shenzhen, and in collaboration with experts and scholars from around the world, after five years of hard work it has matured into a thought leader of growing international influence, focused on supporting regional and national strategic development through policy analysis, theoretical research, professional education and training, and by providing exchange platforms.

OUR VISION

Embracing the philosophy of "studying the world, exploring the path ahead, understanding universal principles, and governing for the greater good", we strive as a think tank to act as a bridge between knowledge and action, to provide advice to national decision making, to promote theoretical innovation, to serve as a guide for public opinion, to foster social consensus, and to interpret leading-edge developments.

OUR MISSION

Our core mission is to help decision-makers seek certainty in an uncertain world. Through scientific research and analysis of the world's pain points, difficulties, and most topical issues, we provide theoretical frameworks and feasible suggestions for government, enterprises, and other decision-makers to improve local, national, and global policies and governance.
At the same time, by building the three main structures of academics, disciplinarity and discourse, we will create an inclusive knowledge system for the social sciences based on Chinese philosophy and create a strong voice and narrative power in the domestic and international communities.

MAIN WORK

- **Academic research: providing original, leading-edge, impartial and objective theoretical analysis.**
  All our research is based on fair-minded assessment of key global issues, commitment to inclusive and open thinking, and rigorous investigation of data and facts, to produce original, leading-edge, impartial and objective theories and analysis.
  Our research starts from a global perspective, focusing inter alia on China's political economy, international relations and foreign policy, global development and governance, economic policy, industrial policy, scientific and technological innovation and sustainable development, rules and standards and international-related rule of law, internationalization of Chinese enterprises, the Guangdong-Hong Kong-Macao Greater Bay Area, marine economy, and the Southern China Common Market. Based in China, looking to the world and facing the future, we strive to build China's inclusive knowledge system.

- **Policy consultation: providing feasible suggestions for decision makers**
  We provide theoretical frameworks and feasible suggestions for decision-makers such as government and enterprises to improve local, national and global policies and governance. We circulate more than 100 policy reports each year, most of which are taken up by Central Government and various levels of local government.
  We continue to undertake and implement important projects commissioned by government, enterprises, universities and others; develop key research bases; and provide theoretical and practical foundations for China to formulate corresponding strategies and policies.

- **International Forum: Building an International Exchange Platform**
  We have built an international exchange platform that brings together policies, theory, and professional education and training. Through in-depth discussions and brainstorming of ideas on diverse topics, we promote dialogue between academia and policy-makers, and between China and the world.
  “The ocean draws from all rivers, and from such tolerance comes its greatness.” Based on this concept, we have founded our own academic programme brands, the “Haina Lecture” and the “Baichuan Forum” series, aiming to provide a broad and inclusive platform for thinkers from home and abroad. By brainstorming and contending, we aim to inject intellectual momentum into China’s development in the New Era and to bring China’s strength to the service of humanity’s shared future.

- **Think tank communication: promote social consensus and build China's international discourse power**
  Through the communication matrix of media, website, and publishing, we transcend international barriers and transmit the voices of China, Asia, and the world to academia, politics, and the public.
  Our independent social media brand "Greater Bay Area Review" is dedicated to creating an authoritative, forward-looking and diverse thought-exchange platform with an international perspective and in-depth content. Our publications, including books such as The Middle Technology Trap, The Qianhai Model and Industrial Policy Change, analyze domestic and international policy changes and provide insights into key global issues and phenomena.

- **Education and Training: our commitment to cultivating the next generation of policy leaders**
  We have established effective think tank/university interaction and collaboration with the School of Public Policy of CUHK-Shenzhen. Together we promote deep integration and a symbiotic relationship between policy research and academic research, with a shared commitment to cultivating professional excellence in public policy and leadership.
  We organize thematic policy training courses for civil servants and corporate executives from relevant organizations in the Guangdong-Hong Kong-Macao Greater Bay Area and from across China on topics such as international relations, domestic and foreign affairs, public policy, urban management, and sustainable development, helping leaders in multiple fields to sharpen requisite skills and strategies.

DIRECTOR'S MESSAGE

Over the past forty years of reform and opening, China has continuously driven forward practical, theoretical and institutional innovation, achieving'the Chinese Miracle': soaring growth, institutional transformation, and finally competitive breakthrough. Today, the world is undergoing unprecedented turbulence in the"great changes unseen in a century."Global governance finds itself caught between the competing forces of multilateralism and democratization of the global order on one side, and unilateralism and self-interest-driven deglobalisation on the other. Fragmentation is severe, and while the pace of re-establishing international rules has quickened, the challenges have grown exponentially.

As a comprehensive social science research institution combining the strengths of an academic research centre and a policy think tank, the Institute for International Affairs, Qianhai, has adhered to the principles of"Researching the World, Exploring the Path Ahead, Understanding Universal Truths, and Governing for the Greater Good"since its inception. It is committed to original, independent, and world-class academic research, addressing significant national, cultural, and global issues while actively fostering platforms for understanding both China and the world through research and scholarly exchange.

With the support from various levels of government and The Chinese University of Hong Kong, Shenzhen, the Institute has attracted a cohort of internationally-minded, interdisciplinary, and forward-thinking talent with cutting-edge expertise. In its operational model, the Institute integrates"academic research, policy analysis, and consultancy," balancing academic and policy research with equal emphasis. It has established research teams guided by"in-depth study"and project groups structured around"project management." The Institute also organizes annual international academic conferences on thematic issues, promotes international visiting scholar programs, and pioneers original academic research. In its aspirations, the Institute aims to deliver highly specialized research while fostering an open and interdisciplinary knowledge-sharing environment. It seeks to become the"Core Engine"for advancing original knowledge in the humanities and social sciences.

Here, I extend my heartfelt gratitude to my colleagues for their dedication and effort, as well as to all who have supported and encouraged us. I firmly believe that, like other pivotal academic institutions throughout history, we are, and will continue to be, unwavering and fearless in exploring the future—our future, China's future, and the world's future.

STRUCTURE

RESEARCH CENTRES

CENTRE FOR POLITICAL ECONOMY

Social science theories are derived from the distillation of social experiences and practices. The existing social science framework originates from the history and practices of the West. Rigidly applying Western theories in a"Procrustean Bed" manner not only fails to scientifically explain China's unique history and practices but also leads to conceptual confusion. Without theoretical tools tailored to understanding Chinese society, constructing a knowledge system grounded in China's practical experiences becomes an arduous task. Yet, the need for such a social science knowledge system is both pressing and essential for comprehending China. Only by recalibrating perspectives can one identify Chinese solutions for China's issues and propositions. Focusing on Chinese history and practice, the Centre for Political Economy is engaged in the creation of a Chinese social science knowledge system based on actual Chinese historical experiences and practices.

CENTRE FOR INTERNATIONAL RELATIONS AND FOREIGN POLICY

The Centre for International Relations and Foreign Policy is dedicated to researching China's foreign relations and diplomacy. Leveraging insights from studies on the evolution of international political structures, the Centre provides strategic recommendations to the Chinese government for developing policy roadmaps and long-term strategies. The Centre has also designed a systematic, standardised, and visualized decision-making framework, offering practical policy advice and international political risk management plans to the Chinese government and multinational corporations. Its research team comprises highly skilled, interdisciplinary scholars with robust theoretical backgrounds in international relations and extensive experience in policy research, enabling them to deeply analyse the complexities of global affairs. In addition, the Centre hosts annual academic conferences and seminars, creating a platform for policymakers, experts, scholars, and entrepreneurs to engage, exchange ideas, and learn from one another.

CENTRE FOR ECONOMIC POLICY

As a professional and forward-looking research department, the Centre for Economic Policy employs cutting-edge research methodologies and data analysis tools to study economic policies and related issues. The Centre's research team is composed of experts with specialized academic backgrounds and research experience in economics, data analysis, and policy studies. The Centre's work involves analyzing economic data, evaluating various economic policies and trends, and forecasting future economic developments and their potential impacts. These efforts aim to provide effective intellectual support for informed decision-making by governments and businesses. The Centre's researchers contribute to the public discourse by preparing policy reports in the economic domain, publishing research findings and media articles, hosting seminars and forums, and participating in discussions on economic policies. To enhance the practical application of its research, the Centre actively collaborates with government agencies and businesses. Research outcomes are also shared with the academic community and the public through academic articles and books. Furthermore, the Centre fosters partnerships with academic and research institutions both domestically and internationally, advancing the development of economic policy research. These efforts aim to improve the quality of socioeconomic development in China and other regions and countries, while promoting sustainable and healthy growth in the global economy.

CENTRE FOR TECHNOLOGY INNOVATION AND SUSTAINABLE DEVELOPMENT

Technological innovation and sustainable development are intrinsically interconnected: innovation serves as the means, while development remains the ultimate goal. The two are mutually reinforcing and indispensable. On the one hand, sustainable development represents high-quality development, with innovation as its cornerstone—it requires progress driven by technological advancements. On the other hand, technological innovation has transcended being merely an economic or technical issue; it has become a social and political concern. Innovation must align with the principles of sustainable development, balancing scientific and commercial value with social and environmental impacts. In this context, the Centre for Technology Innovation and Sustainable Development will be built on three main platforms - research network, academic journal and information hub - supporting four workstreams: policy research, academic research, government consultancy and specialized training. The Centre will undertake policy and academic research on the 17 Sustainable Development Goals (SDGs) proposed in the United Nations 2030 Agenda, focusing on the following seven topics:

1. The middle-income trap, the middle-technology trap, and institutional innovation and reform (SDGs 8 and 9)
2. Reverse globalization, supply chain restructuring and industrial innovation and upgrading (SDGs 8 and 9)
3. Great Power Games, technological containment, and technological innovation and breakthrough (SDGs Goals 8 and 9)
4. Climate politics, carbon neutrality, and green innovation and development (SDGs 12-15)
5. Energy revolution, smart energy, energy innovation and transformation (SDG 7)
6. Digital revolution, new infrastructure, urban innovation and Smart Cities (SDG 11)
7. Bipolarization, common prosperity, responsible innovation and equitable transition (SDGs 10 and 16)

CENTRE FOR REGULATION AND GLOBAL GOVERNANCE

The core mission of the Centre for Regulation and Global Governance is to bridge the past and present while integrating Chinese and Western perspectives. Focusing on the dual themes of improving domestic rule of law and constructing international legal frameworks, the Centre adopts interdisciplinary research and big data empirical analysis to contribute cutting-edge studies to academia, provide compliance guidance to industries, and deliver strategic consultation to governments. Anchored in the Greater Bay Area, the Centre concentrates its research on three primary domains: domestic rule of law, international law, and AI-driven analyses of national legislations. Leveraging the unique geographical and policy advantages of the Greater Bay Area, the Centre promotes communication and collaboration among governments, enterprises, and other key stakeholders. Through compliance reports, academic publications, actionable policy recommendations, high-level talent training, and academic-policy exchanges, it aims to harmonize domestic and international legal systems, refine rules and standards for institutional openness, and uphold a diverse, stable, and orderly international economic and trade landscape.

CENTRE FOR ENTERPRISE INTERNATIONALIZATION

Driven by China's high-level institutional opening-up, the"Belt and Road Initiative, "and the dual circulation strategy, the globalization of Chinese enterprises is entering a new phase, characterized by the ambition to establish themselves as multinational corporations. Going global has transitioned from being an optional strategy for some companies to a necessity, with certain industries facing an urgent reality of "go global or be left behind." As more Chinese enterprises participate in international markets, the complexities of managing cross-border operations and risk management have grown significantly. On the one hand, they must navigate diverse market challenges, including cross-cultural management, brand building, talent acquisition, and legal compliance. On the other, profound changes in global geopolitical dynamics and domestic politics in host countries have intensified the impact of non-economic factors such as trade disputes, unilateral sanctions, and local political risks on overseas business operations. These developments compel enterprises to enhance their political acumen and their ability to address non-commercial challenges.

To address this evolving landscape, the Institute has established the Centre for Enterprise Internationalization. The Centre integrates resources from policy research, government, and industry to provide Chinese enterprises with a platform for advocacy, in-depth research, and exchange. It also offers policy advice to government bodies at all levels and fosters the rapid development of related domestic research fields, thereby supporting the internationalization of Chinese enterprises and aligning with national strategic objectives.

CENTRE FOR THE GUANGDONG-HONG KONG-MACAO GREATER BAY AREA

The Centre for the Guangdong-Hong Kong-Macao Greater Bay Area is comprised of a team of scholars who graduated from prestigious universities both domestically and abroad. The Centre is dedicated to serving the national strategy for the Guangdong-Hong Kong-Macao Greater Bay Area (GBA) and supporting the region's high-quality development. Its research focuses on key national development issues, including policy evaluation, social governance, and urban planning. Leveraging the strengths of the Institute and The Chinese University of Hong Kong, Shenzhen, in global studies, public policy, and urban studies, the Centre actively collaborates with renowned universities and research institutions in mainland China, Hong Kong, and Macao. It conducts in-depth policy research and empirical studies tailored to the GBA, providing decision support and theoretical foundations for regional development. Additionally, the Centre proactively builds long-term partnerships with governments and enterprises, contributing to the deep integration and sustainable growth of the GBA's"9+2"cities. The Centre aspires to become a distinctive and comprehensive research platform for advancing the region's development.

RESEARCH PROFILE

Policy Reports

Policy reports are one of the most vital channels through which the Institute provides decision-making recommendations to the central and local governments. A regularized submission mechanism has been established, and by the end of 2024, the Institute has submitted more than 500 policy reports. Most of these reports received directives from senior central government leaders and were adopted by various local governments. The reports cover a wide range of topics, both domestic and international: externally, they address major power relations, international conflicts, and international cooperation; internally, they focus on economic development, technological strategies, talent cultivation, and more. Combining topical relevance with academic rigour, these reports provide rational and in-depth analyses of global dynamics and contemporary China's realities.

ACADEMIC PUBLISHING

IIA Policy Analysis Report

Policy analysis reports represent one of the Institute's most significant contributions to facilitating decision-making for the central and local governments. The reports encompass a broad range of topics, spanning both international and domestic affairs. Internationally, they focus on major power relations, international conflicts, and international cooperation. Domestically, they address issues such as economic development, technological strategies, and talent cultivation. As an internal publication, this series combines topical relevance with academic rigour, offering rational and in-depth analyses of global trends and contemporary China's realities.

Asian Review of Political Economy

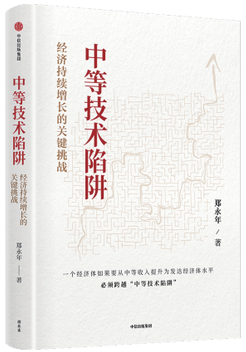

The Asian Review of Political Economy is an English-language academic journal jointly published by IIA, the School of International and Public Affairs of Shanghai Jiao Tong University, and the Institution of Politics and Economics of Shanghai Jiao Tong University, with Professor Zheng Yongnian serving as the editor-in-chief. The journal aims to publish theory-driven and policy-oriented research on a wide range of political economy issues. It focuses on both conventional and emerging topics of political economy, including but not limited to development, distribution, finance, trade, investment, industry and technology, as well as emerging global security challenges.

As an outlet for timely publications with novel approaches, the journal is dedicated to promoting a comprehensive understanding of the political economy of Asia and beyond. The journal encourages interdisciplinary studies across different issue areas and fields of inquiry. It seeks to bring scholars and practitioners into conversations with one another, and is committed to the publication of works valuable to the academy, governmental and non-governmental sectors.

The Middle Technology Trap: A Key Challenge to Sustainable Economic Growth

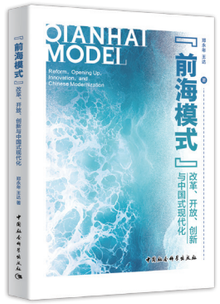

The remarkable achievements of China's reform and opening-up have largely depended on the mutual reinforcement of internal modernization and external globalization. However, in the face of the rapidly changing external environment, the question of how to achieve high-quality development and accomplish the next stage of modernization has become a pressing issue. Against this backdrop, Professor Zheng Yongnian and his team, drawing from both international and domestic development experiences and lessons, have innovatively introduced the concept of the "Middle-Technology Trap" through a comparative analysis of developed economies in Europe, the U.S., Japan, the "Four Asian Tigers" (South Korea, Singapore, Taiwan, and Hong Kong), as well as Latin American and Asian economies that have long been trapped in the middle-income category. This book offers a detailed discussion on the "Middle-Technology Trap," highlighting the developmental logic China must follow to overcome this challenge in the realm of technological advancement, and provides feasible strategies for future economic construction and growth. The book is published by CITIC Press.

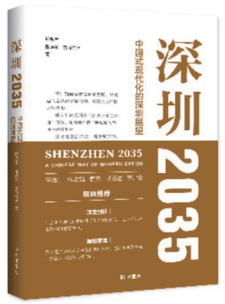

"Qianhai Model": Reform, Opening-up, Innovation, and the Chinese Path to Modernization

Qianhai stands as one of the most representative and emblematic live cases of Chinese-style modernization. The "Qianhai Model" vividly demonstrates the three key drivers of high-quality development -- reform, openness, and innovation. As a major national strategic platform for the new era, the Qianhai Shenzhen-Hong Kong Modern Service Industry Cooperation Zone explores how to leverage Hong Kong, serve the Mainland, and engage with the world, contributing to Chinese-style modernization. This book offers a panoramic view of Qianhai's reform, openness, and innovation over the past decade, covering aspects such as institutional-innovation-driven development, central-local coordination, the construction of a new modern service industry system, deepening Shenzhen-Hong Kong cooperation, and the development of the Qianhai new area. Starting with the "Qianhai Model" as the focal point and highlighting the comprehensive realization of Chinese-style modernization, this work provides valuable experiences and insights for telling the "Qianhai Story." The book is published by the China Social Sciences Press.

Shenzhen 2035: Shenzhen and the Chinese Path to Modernization

In this book, Professor Zheng Yongnian and his team propose the construction of a "region-embedded" international economic platform. They explore the fundamental connotations of socialist modernization in the context of the new development stage, new development philosophy, and new development pattern, while examining Shenzhen's historical mission. The book provides an in-depth analysis of the construction of the socialist modernization index system and the international experiences of achieving socialist modernization. It focuses on four levels of analysis: international, national, the Greater Bay Area, and Shenzhen's development. It highlights the important significance of Shenzhen in the realization of Chinese-style modernization and demonstrates China's role as a major power in the unseen global changes in a century. This book is published by Shenzhen Publishing House.

HAINA & BAICHUAN

Inspired by the philosophy of "embracing all rivers to create the vastness of oceans," the Institute established its independent academic event brands, the Baichuan Forum and Haina Lecture. These platforms aim to provide an expansive and inclusive space for thinkers from across the globe to exchange ideas, fostering intellectual synergy and contributing to the momentum of China's development in the new era. The influence of these brands continues to grow across various sectors. Events have been extensively covered by leading national media outlets, including People's Daily, Guangming Daily, and Xinhua News Agency, with cumulative readership exceeding 10 million. They have garnered widespread attention and sparked thoughtful discussions across society.

HAINA LECTURE

With the philosophy of "vastness born from harmony and depth," the Haina Lectures were established to provide the public with a broader platform for exchange. Guided by the principle of " embracing all streams into the ocean and drawing wisdom from diverse perspectives," the series aims to enlighten minds, foster intellectual dialogue, and encourage critical debate. Hosted annually, each lecture focuses on pressing topics in international affairs, domestic and foreign policy, reform and opening-up, and innovation-driven development.

Renowned experts and scholars in these fields are invited to deliver keynote speeches, addressing contemporary challenges with insights that are both practical and theoretically grounded. These lectures aim to inform the public about cutting-edge developments, global dynamics, and China's strategic responses, inspiring reflection and fostering social consensus. In 2021, Professor Zheng Yongnian inaugurated the Haina Lecture with the theme "Common Prosperity and the Development Prospects of Chinese Enterprises." In 2022, Former Ambassador to the U.K. Liu Xiaoming was invited to speak on "Enhancing China's International Communication Influence in the New Era." In 2023, Mr. Cui Tiankai shared his insights on "Certainty and Uncertainty in Sino-US Relations." In 2025, Professor Jeffrey Sachs、Dr. Harry Shum and Professor Nieng Yan were invited to present their introductory perspectives on "sustainable development" and "open cooperation. The lecture has generated positive academic and social impacts.

郑永年：共同富裕必须是包容式、开放式的发展

光明日报客户端 光明日报全媒体记者 党文婷 2021-12-15 12:13

改革开放以来，中国促成8亿人口脱离绝对贫困，创造了世界经济史上的奇迹。曾经“让一部分人先富起来”是改革开放的主题，为中国企业的发展提供了有利的政策环境，让企业成为中国社会经济可持续发展的主体。如今“共同富裕”已经成为新时期经济发展中最重要的议题之一，也将决定和影响今后中国企业发展的政策环境。

基于此，12月13日下午，香港中文大学（深圳）全球与当代中国高等研究院暨前海国际事务研究院举办了首期“海纳讲座”。本期讲座聚焦“共同富裕与中国企业发展前景”这一主题，由香港中文大学（深圳）校长讲座教授、人文社科学院代行院长、全球与当代中国高等研究院院长、前海国际事务研究院院长郑永年
