FACTS 事实 | INSIGHT 洞见 | IMPACT 影响

香港中文大学（深圳）国际事务研究院（以下简称“研究院”）以“研究世界、探索前路、体认天理、经世治平”为理念，与前海国际事务研究院采用“一院两翼、协同发展”的运营模式，致力于打造一个集智库、研究生院、国际论坛三位一体的综合型研究院，使之成为立足深圳、放眼全球的具有国际影响力的学术思想重镇与政策研究型智库，培养具有国家情怀和国际视野的优秀人才，为区域及国家的战略发展提供及时的、富有预见性的政策分析。

主要研究工作包括：

- ◆ 从全球视角出发，聚焦中国改革开放、经济政策、企业政策、科技政策、可持续发展、海洋经济、国际战略和外交、全球发展与治理、粤港澳大湾区、南方共同市场领域等的研究；
- ◆ 以政策咨询为主攻方向，在所有重大政策领域为中央和各级地方政府及企业提供政策分析和决策咨询；
- ◆ 围绕中国政治经济学建设构建中国的知识体系；
- ◆ 举办主题性质的政策培训班，就国际关系、内政外交、公共政策、城市管理、可持续发展等主题对粤港澳大湾区乃至全国的相关部门公务员或企业高管进行培训；
- ◆ 打造政策、理论、人才培养相结合的知识与政策国际交流平台，提升国家在国际和外交问题上的话语权和国际影响力。

研究院由政治经济学家、香港中文大学（深圳）教授郑永年领衔，联合众多具有国际学术背景的杰出教授、学者和研究人才参与其中。研究院自成立以来，在短时间内取得了飞速发展。迄今为止，研究院共出版政策报告百余篇，其中多数已被中央和各级地方政府所采用；成功主办各类学术活动十余场，其中我院自主学术交流活动品牌“海纳讲座”和“百川论坛”被国家主流媒体广泛追踪报道。

我们的愿景是成为中国智库的中坚力量，把业界和知识界结合起来，填补学界和政策界之间的鸿沟，为探索中国和世界的未来注入思想动能。

院长致辞

PRESIDENT'S MESSAGE

在四十多年的改革开放中，我们国家不断推进实践创新、理论创新、制度创新，成就了从起飞、转型到跨越的“中国奇迹”。今天，世界正经历风云激荡的“百年未有之大变局”，全球治理挣扎在维护多边主义和全球秩序的民主化与各自为政、自身利益至上的反全球化两大力量博弈之中，碎片化严重，国际规则重新制定的速度加快、难度加大。

作为一个兼容学术性思想库和政策研究型智库的社会科学综合性科研机构，前海国际事务研究院自创立以来，以“研究世界、探索前路、体认天理、经世治平”为理念，坚持原创的、独立的、世界领先的学术研究，探索民族性、国家性、世界性的重大问题，积极推动认识中国和认识世界的研究与学术交流平台建设。

在各级政府和香港中文大学（深圳）的支持下，研究院招揽了一批具有国际视野、跨领域经验和专业前瞻性的国际化、创新型、专业性人才。在运营模式上，研究院探索“学术+政策+咨询”三方结合，且学术研究和政策研究并重的道路，

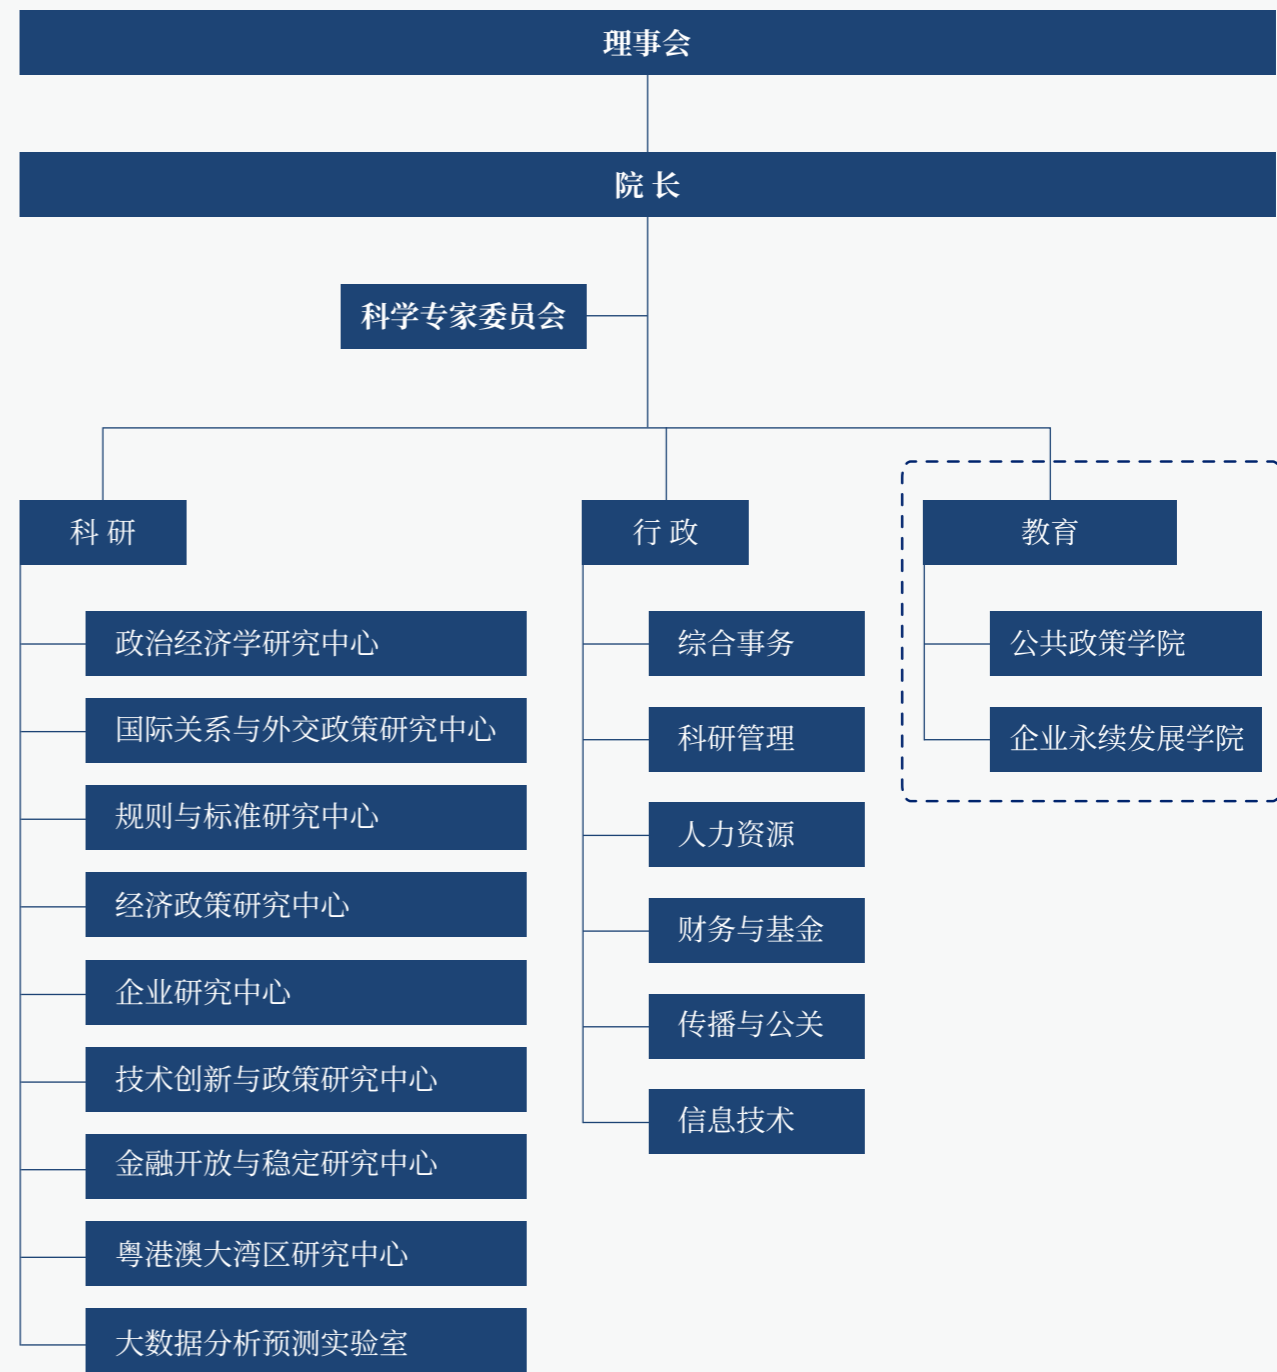

设立以“深度研究”为导向的研究团队，以“项目管理”为框架的研究小组，并组织年度主题国际学术研讨会，建立国际化访学制度，开拓原创性学术研究。在发展目标上，研究院致力于提供高度专业化研究，并打造跨越学科边界、开放的知识交流氛围，成为人文社科原创性知识发展的“核心发动机”。

在这里，我感谢各位同仁的付出和努力，也感谢多方给予我们的关注和支持。我相信，如同历史上那些重要的学术机构一样，我们正在也将持续不懈地、无惧无畏地探索我们的未来、中国的未来和世界的未来。

郑永年

组织架构

STRUCTURE

政治经济学研究中心

社会科学理论源于对社会经验实践的提炼，现有社会科学体系的源头是西方的历史和实践。对西方理论削足适履式地应用，不能客观完整地反映中国自身历史与实践，反而会造成思想观念的混淆。缺乏理解中国社会自身的理论工具，会使得构建基于中国经验之上的知识体系变得困难，而理解中国迫切需要这样一套社会科学知识体系。只有校正视角，才能得出真正适合中国的方案、规则与政策。从真实的中国实践和历史经验出发，建设中国的社会科学知识体系，是 IIA 的核心使命。

聚焦方向 中国实践、中国历史、中国社会科学理论

国际关系与外交政策研究中心

中国已成为世界主要大国。中国必须打造更有效理解和协调国际社会不同利益的能力，为自身发展塑造和平国际环境。维护国际社会的秩序和利益也是大国应有的担当。IIA 跟踪世界主要区域和国家的重要利益领域的核心问题，深入分析各方核心诉求及其背后的深层原因，在复杂的国际利益关系网络中寻找关键节点，为外交提供深入的背景分析，找出最有力的政策抓手。

聚焦方向 大国关系、国际社会利益研究、区域研究

规则与标准研究中心

随着全球化的深入，世界政治经济竞争越发聚焦于国际规则和技术标准。制定并推广更有竞争力和统一的中国规则与中国标准，是中国建立全国统一市场、经济由大变强的根本。IIA 聚集了全球规则与标准竞争研究领域专家，基于前沿研究，为规则制定和行业技术标准竞争提供洞见和落实策略。

聚焦方向 规则一体化、标准制定的政治经济机制、行业标准研究、标准网络

经济政策研究中心

发展型国家在经济管理中积极有为，使用政策促进经济发展和转型。中国进入经济转型关键期后，产业建设的重点从承接国际产业链转移变为尖端技术竞争。技术竞争的高风险性意味着，使用传统产业政策造成的“圈定赢家”和产能过剩的风险也会急剧加大，甚至危及全球产业链的稳定。中国需要为现代化的政策方案，统筹协调创新、人才、教育、金融、财政、贸易政策、市场监管和国际协作，才能有效引导经济发展。IIA 的研究人员和专家深刻理解现代经济政策高度复杂的需求，致力于从复杂性出发，提炼出清晰可行的政策建议和方案，服务中国经济转型。

聚焦方向 政策协调、产业政策、行业研究

企业研究中心

国有企业和民营企业都是中国混合所有制经济的主体。两者在民生、产业链、金融等多个层面间的有机联系，是中国经济生态的重要生理。新时代下，国有企业和民营企业都面临全新的挑战和再定位要求，包括有效研发、国际化、全球合规、完善企业 ESG 体系建设等等。IIA 将利用自身高水平研究资源帮助国企与民企解决各自面临的新挑战，为政策制定者在完善混合所有制经济、政商关系、国企民企定位上提供咨询。

聚焦方向 有效研发、国际化、全球合规、ESG 体系建设、政策协调、混合所有制经济、国企民企定位

技术创新与政策研究中心

中国已进入高质量发展阶段，以技术创新为驱动，以国家创新体系为支撑。政府、市场、社会在创新体系中各自具有不可替代的作用，这三者的互相开放以及对国际社会的开放对创新至关重要。在美国试图与中国技术脱钩的背景下，中国需要在创新体系现代化上寻找答案，突破技术封锁。如何实现创新上的国民融合，建设国际间开放共赢式创新模式、以及利用政策催生新兴市场是要点。维持全球创新体系的开放，促进技术创新全球化也是中国的重要国际责任。IIA 从大量研究和案例入手，总结出建设创新体系的最佳实践。同时 IIA 将利用专利、供应链、研究以及市场数据，寻找中国技术创新和新技术行业的薄弱点和突破点。为政策制定提供全面的咨询和建议。

聚焦方向 创新体系比较研究、开放式创新、创新政策、知识产权保护研究

金融开放与稳定研究中心

金融是现代经济的血液，推进金融开放，有利于我国实现高质量发展。作为世界大国，中国在推进全球化进程上负有重大的国际责任。金融开放是当今世界经济全球化的一大趋势，是各国取得互利共赢的重要渠道，也是中国推进国际化的主要抓手。中国在推进金融开放与全球化的同时，也要维护全球的金融稳定，因为金融开放会增加金融对外依赖性和风险传染性，使风险来源更多元化。如何继续推进金融开放全球化的同时维护世界全球金融体系的稳定，是国际社会面临的共同命题，也是 IIA 金融开放与稳定研究中心的研究使命。

聚焦方向 人民币国际化、数字货币、数字资产、跨境电子支付、金融大数据、金融稳定、全球金融监管合作和比较研究

粤港澳大湾区研究中心

深圳处于大湾区融合的核心地带，而大湾区是中国内外循环的重要衔接带。大湾区可以在建设全国统一市场、促进内循环上起先锋作用。首先在前海、南沙、横琴三点建立统一规则的大湾区市场。在此之上，大湾区市场和规则可以进一步发展，以点带面辐射扩散形成一个“南方共同市场”，囊括福建、台湾、海南、湖南，江西等地区。大湾区也是中国经济外循环的桥头堡，是先进制造、电子信息科技、金融、高端服务业等重点对外行业重要基地。IIA 将服务于粤港澳大湾区的发展和壮大，为区域发展融合提供高质量的咨询服务。

聚焦方向 大湾区融合、大湾区市场、大湾区规则、南方共同市场

大数据分析预测实验室

大数据时代，全球重要事件、言论、情绪和活动电子空间留下了大量“数据足迹”。大数据和机器学习技术能帮助我们找出海量“数据足迹”的走向和交汇点，了解和描述未来的多种可能。IIA 使用前沿人工智能模型，从海量新闻、舆情、金融、贸易、政策、国际关系的综合大数据集中探索和解析未来大趋势的关联结构，帮助决策者把握趋势、管理风险，做出精准判断。

聚焦方向 大数据分析方法和政策与事件预测、机器学习、关联分析、数据可视化

“海纳百川，有容乃大”，研究院以此为理念举办百川论坛与海纳讲座，为国内外的思想者提供一个广阔而包容的平台，通过集思广益，积厚流广，为新时代的中国发展注入思想灵魂。

包容，是中华文明的内在气质。尚合，求大同，从而形成凝聚。就像大海，充满了力量，因为它虚怀若谷，容纳所有河流，大的、小的、清的、浊的、兼收并蓄。当前，国内外形势错综复杂，发展前景尚不明朗，中国需要一片能够凝聚各方思想的海洋。精神的、文化的、物质的、经验的、外来的、本土的、现代的、古代的，都可以汇入这片海洋。

概述

为鼓励和推进基于交叉学科之上的政策科学研究，培养政策分析人才，香港中文大学（深圳）国际事务研究院（以下简称“研究院”）设置 IIA 奖学金，用于资助赴香港中文大学（深圳）攻读博士学位的符合条件的候选人，助力有潜力的博士生实现在目标领域内深耕。
获得研究院资助的攻读博士学位的候选人将获得研究院 IIA Fellowship 名誉。

项目内容

适宜候选人	获得香港中文大学（深圳）正式录取通知书、并决定赴香港中文大学（深圳）攻读博士学位的候选人。（已接受其它全额奖学金项目资助的博士生不属于资助范围）
奖学金分类	全额奖学金、半额奖学金、生活费三类。 （最终的资助类型将根据评审委员会综合评定后确定）
奖学金期限	一般为 3 年，不超过 4 年，按学期或学年分期支付。
其他要求	IIA 奖学金获得者在获得资助期间，应为研究院提供与研究工作的服务，具体内容通过最终 IIA 奖学金人才计划协议商定。

申请流程

IIA 奖学金采取博士生申请、研究院初筛与专家委员会面试评审的方式进行。申请人应当仔细阅读研究院当年公布的奖学金简章，按照当年申请规定的程序、时间和要求提交申请材料，并对材料的真实性负责。

研究院对邮件申请材料进行初筛，并向通过初筛的候选人发出专家面试评审邀约。研究院组织专家委员会对候选人进行面试评审，并将最终结果先报候选人所在项目领导审批，最后由研究院领导审批。通过全部申请流程的博士生与研究院签订正式的人才计划协议。

ABOUT US

FACTS | INSIGHT | IMPACT

The mission of The Institute for International Affairs (IIA) of The Chinese University of Hong Kong, Shenzhen (hereinafter referred to as "IIA") is to take a global, forward-looking, evidence-based approach to the study of public policy and international affairs. IIA operates The Institute for International Affairs, Qianhai, based on the "one institute, two wings" mode for coordinated development. We aim to be regarded as a comprehensive research institute combining the function of think-tank, post-graduate school and international forum, which is of strategic importance in academic and policy research based in Shenzhen. IIA analyses China from a global perspective, provides timely and forward-looking policy analysis and consultancy for central and local government and develops outstanding specialists.

IIA's principal research areas include:

- ◆ Examining from a global perspective China's reform and opening up, economic policy, industrial policy, technology policy, sustainable development, maritime economy, international strategy and diplomacy, global development and governance, as well as Greater Bay Area integration, and the southern China common market.
- ◆ In the field of policy analysis and consultancy, offering support to central and local government and enterprises across all major policy areas.
- ◆ Developing a knowledge system applicable to China's political economy.
- ◆ Providing policy training for government personnel and senior enterprise management in the Greater Bay Area and the country at large in international relations, domestic and foreign affairs, public policy, urban management, sustainable development, and other areas.
- ◆ Establishing an international hub for knowledge and policy exchange which combines policy research, theory building and talent development, thereby strengthening China's contribution to global dialogue on international and diplomatic issues.

IIA boasts world-class faculty, scholars, and research staff from international academic backgrounds. Its founding President is Professor Zheng Yongnian, a senior scholar in political economy. Since its recent establishment, IIA has made rapid progress. IIA has so far published over 100 policy reports, which are circulated to central and local government, and many policy recommendations are adopted by or received attention of government at different levels. We have successfully hosted more than ten academic events, including our newly minted Haina Lecture and Baichuan Forum, which gained wide national media coverage.

Our ambition is to become the backbone of China's think tanks, bringing together industry, public intellectuals, academia, and policy makers. We aim to inject intellectual momentum into exploration of the future for China and the world.

PRESIDENT'S PROFILE

Zheng Yongnian

Professor Zheng graduated from Peking University (BA International Relations, 1985; MA in Law, 1988) and Princeton University (MA in Political Science, 1992; PhD, 1995). He was a Lecturer in the Department of Politics and Public Administration of Peking University (1988-1990); Research Fellow and Senior Research Fellow of the East Asian Institute, National University of Singapore (1997-2005); Professor and Research Director of the China Policy Institute, University of Nottingham (2005-2008); Professor and Director of the East Asian Institute, National University of Singapore (2008-2020). He was a Fellow of the US Social Science Research Council-MacArthur Foundation (1995-1997) and a John D. and Catherine T. MacArthur Foundation Research Foundation Fellow (1998-2000).

Professor Zheng's main research interests are international relations, foreign policy, Sino-US relations, China's domestic transformation and its external relations. He has authored and edited some one hundred books, including ten English monographs. He has published numerous research papers in international academic journals.

PRESIDENT'S MESSAGE

Over the past forty years of reform and opening, China has continuously driven forward practical, theoretical and institutional innovation, achieving 'the Chinese Miracle': soaring growth, institutional transformation, and finally competitive breakthrough. Meanwhile the world is going through shattering change such has not been seen in a century. Global governance is locked in a struggle between forces seeking to uphold multilateralism and democratization of the global order, and an anti-globalization grounded in narrowly defined national interest. Severe fragmentation makes reformulation of global rules both more urgent and more problematic.

As a broad-based social science research institution combining the functions of academic centre of excellence and policy think tank, IIA has from its inception focused on conducting original, independent, world-class academic and policy research. In adopting a global, forward-looking, evidence-based approach to the study of public policy and international affairs, we seek to unpack the great challenges which confront peoples, nations, and the world at large. We aspire to be a leading academic forum and exchange hub promoting better understanding both of China and of the world.

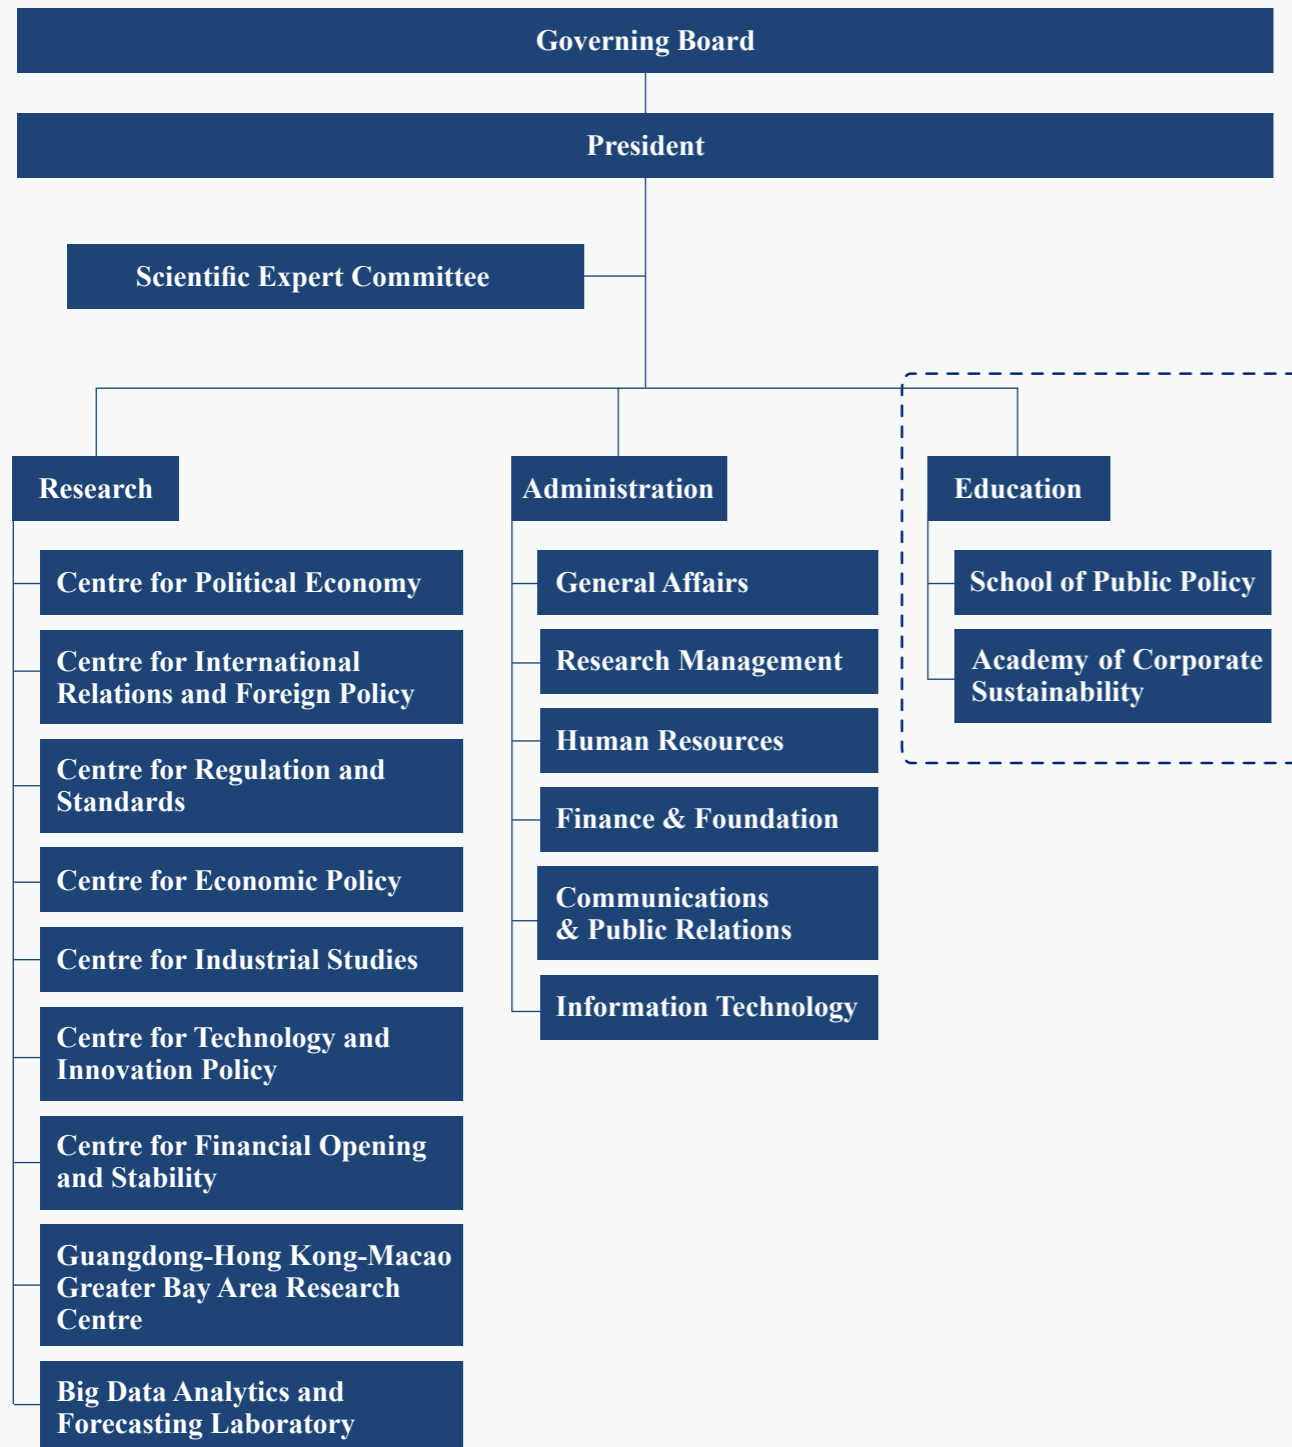

With the support of government at all levels and of the Chinese University of Hong Kong, Shenzhen,

IIA has assembled an innovative, international talent pool with both interdisciplinary strength and leading-edge sector expertise. We have been experimenting with a combination of academic and policy research (with equal emphasis on each), and policy consultancy. We have set up workgroups focused respectively on academic research, policy research and project management. IIA also organizes annually themed international academic and policy conferences and seminars, and operates an international study visits programme. IIA aims to foster both sectoral research expertise and interdisciplinarity in a culture of open intellectual exchange. We seek to be a powerhouse of original knowledge creation in the humanities and social sciences.

I would like to thank all my colleagues for their dedication and hard work, and also express my gratitude to the many others who have given us their attention and support. I am confident that, like those great academic institutions which have stood the test of time, we shall unceasingly and without fear explore our own future, just as we study the future of China and of the world.

STRUCTURE

RESEARCH CENTRES

Centre for the Study of Political Economy

Social science theory distills social experience and practice, and the existing social science system has its roots in Western history and practice. A truncated application of Western theories does not wholly and objectively reflect China's history and practice but rather creates ideological confusion. The lack of theoretical tools to understand Chinese society makes it difficult to construct a body of knowledge based on Chinese experience, which is urgently needed to understand China. Only a corrected perspective can lead to programmes, rules, and policies truly appropriate for China. Building a body of knowledge in the social sciences in China from actual Chinese practice and historical experience is at the heart of the IIA's mission.

OUR FOCUS

Chinese Practice, Chinese History, Chinese Social Science Theory

Centre for International Relations and Foreign Policy Studies

Having become a significant global power, China must build its capacity to more effectively understand and coordinate the different interests of the international community and shape a peaceful international environment for its development. The IIA tracks the core issues in the critical areas of interest of the world's major regions and countries, provides in-depth analysis of the core demands of each party and their underlying rationale, and identifies critical nodes in the complex network of international interests, providing in-depth contextual analysis for diplomacy and identifying the most potent policy levers.

OUR FOCUS

Great Power Relations, Studies in the Interests of the International Community, Regional Studies

Centre for Rules and Standards Research

As globalization progresses, world political and economic competition is increasingly focused on international rules and technical standards. The development and promotion of more competitive and uniform Chinese rules and Chinese standards are fundamental to establishing a unified national market and achieving economic progress in China. The IIA brings together global experts in rules and standards competition research to provide insight and implementation strategies for rule making and industry technical standards competition based on cutting-edge research.

OUR FOCUS

Rule Integration, Political Economy Mechanisms for Standard-Setting, Industry Standards Research, Standards Networks

Centre for Economic Policy Research

A developmental state is proactive in its economic management, using policies to promote economic development and transformation. As China enters a critical period of economic transformation, the focus of industrial construction changes from serving international supply chains to competing in cutting-edge technologies. The high-risk nature of technological competition means that the danger of ‘picking winners’ and overcapacity caused by traditional industrial policies also increases dramatically, even to the point of endangering the stability of global supply chains. IIA's researchers and experts understand the highly complex needs of modern economic policy. They are committed to distilling out of this complexity clear and feasible policy recommendations and solutions to serve China's economic transformation.

OUR FOCUS

Policy Coordination, Industrial Policy, Industry Research

Centre for Corporate Research

Both state-owned and private enterprises are mainstays of China's mixed-ownership economy. The organic links between the two at many levels, including livelihoods, supply chains and finance, are vital to China's economic ecology. In the New Era, both SOEs and private enterprises face new challenges and repositioning requirements, including effective R&D, internationalization, global compliance, improving corporate ESG systems, and so forth. IIA will use its high-level research resources to help SOEs and private enterprises address the new challenges they face and provide advice to policymakers on improving the mixed-ownership economy, government-business relations, and the positioning of SOEs and private enterprises.

OUR FOCUS

Effective R&D, Internationalization, Global Compliance, Corporate ESG Systems Building, Policy Coordination, Mixed-Ownership Economy, Positioning of SOEs and Private Enterprises

Centre for Technology Innovation and Policy Research

China has entered a phase of high-quality development, driven by technological innovation and supported by a national innovation system. Government, market, and society each have an indispensable role in the innovation system. The opening up of these three to each other and to the international community is crucial to innovation. Against the backdrop of US attempts to decouple technology from China, China needs to find answers to modernize its innovation system and break through the technology blockade. Key points are how to achieve national integration in innovation, build an open, win-win innovation model internationally, and use policies to catalyze emerging technology markets. The IIA will draw on a wide range of research and case studies to identify best practices for building innovation systems. The IIA will also use patent, supply chain, research, and market data to identify weaknesses and breakthroughs in China's technological innovation and new technology sectors. It will provide comprehensive advice and recommendations for policy development.

OUR FOCUS

Comparative Study of Innovation Systems, Open Innovation, Innovation Policy, Intellectual Property Protection Research

Centre for Research on Financial Openness and Stability

Finance is the lifeblood of the modern economy, and promoting financial openness is conducive to achieving high-quality development in China. As a global power, China has an important international responsibility to promote the process of globalization. Financial openness is a significant trend in the globalization of the world economy today, a virtual channel for countries to achieve mutual benefits and win-win results, and the mainstay of China's promotion of internationalization. While promoting financial openness and globalization, China must also maintain global financial stability, as financial openness increases external financial dependence and risk contagion, by diversifying the sources of risk. Continuing to promote global financial openness and globalization while maintaining the stability of the world's global financial system is a shared task for the international community and the research mission of the IIA Centre for Financial Openness and Stability Studies.

OUR FOCUS

RMB Internationalization, Digital Currency, Digital Assets, Cross-Border Electronic Payments, Financial Big Data, Financial Stability, Global Financial Regulatory Cooperation, and Comparative Studies

Guangdong-Hong Kong-Macao Greater Bay Area Research Centre

Shenzhen is at the core of the integration of the Greater Bay Area, which is a crucial nodal region in China's internal and external economic circulation. The Greater Bay Area can play a pioneering role in building a unified national market and promoting internal circulation. The first step is to establish a Greater Bay Area market with unified rules at the three points of Qianhai, Nansha, and Hengqin. In addition, the Greater Bay Area's market and rules can develop further to form a 'Southern Common Market' by radiating and spreading from point to point, encompassing Fujian, Taiwan, Hainan, Hunan, Jiangxi, and other regions. The Greater Bay Area is also a bridgehead for China's outward economic circulation and an essential base for key external sectors such as advanced manufacturing, electronic information technology, finance, and high-end service industries. IIA will serve the development and growth of the Guangdong-Hong Kong-Macao Greater Bay Area and provide high-quality regional development and integration advisory services.

OUR FOCUS

Greater Bay Area Integration, Greater Bay Area Market, Greater Bay Area Rules, South China Common Market

Big Data Analytics and Forecasting Research Laboratory

In the age of Big Data, important global events, discourse, sentiment, and activity leave a massive 'data footprint' in electronic space. Big data and machine learning techniques can help us identify where the vast 'data footprint' is heading and where it intersects' and understand and describe multiple future scenarios. Using cutting-edge artificial intelligence models, IIA explores and analyses the correlation structure of future megatrends from a comprehensive set of big data on news, public opinion, finance, trade, policy, and international relations. It helps decision-makers to grasp trends, manage risks and make accurate judgments.

HAINA BAICHUAN

Taking their titles from the Chinese proverb *Hai Na Bai Chuan, You Rong Nai Da* ("just as a sea absorbs a hundred rivers, so wisdom resides in listening to all sides"), our Haina Lecture and Baichuan Forum provide broad and inclusive platforms for thinkers from home and abroad. Through openness to diverse perspectives and talents we hope to enliven thinking about China's development in a new era.

Inclusivity, based on harmony and creating cohesion, is a core concept of Chinese civilization. An ocean's power derives from its capacious openness to all rivers: great and small, clear and turbid. At home and internationally, we live in an age of complexity, where progress is uncertain. For China's sake, let us pool our thinking and share our perspectives, be they spiritual, cultural, material, experiential, remote, local, modern, or ancient. Let us create an ocean of ideas.

Global and Contemporary China Research Fund, The Chinese University of Hong Kong, Shenzhen

Background

The Chinese University of Hong Kong, Shenzhen Education Foundation is a Shenzhen "5A" grade foundation established in 2014. The purpose of the Foundation is to provide financial support for the study and living expenses of college students; improve the quality of college education and the scientific research conditions; broaden and enhance sources of support for the University's advancement.

Introduction

The Global and Contemporary China Research Fund (referred to as the Fund below) aims to provide effective support for the long-term and sustainable development of The Institute for International Affairs, Qianhai of the Chinese University of Hong Kong, Shenzhen. Drawing on the experience of domestic and foreign think-tanks, the Fund aims to create a powerful talent pool through wide support and sponsorship from enterprises and society. The Fund will provide objective, independent, visionary and strategic policy research, industry analysis and forecasting based on trend analysis in domestic and international affairs. In addition, the Fund will provide intellectual support and consultation for the strategic planning and long-term development of Shenzhen, the Greater Bay Area, and China.

Our Mission

The Fund aims to create a powerful talent pool through wide support and sponsorship from enterprises and society. The Fund will provide objective, independent, visionary and strategic policy research, industry analysis and forecasting based on trend analysis in domestic and international affairs. In addition, the Fund will provide intellectual support and consultation for the strategic planning and long-term development of Shenzhen, the Greater Bay Area, and China. The Fund will provide intellectual support for promoting regional sustainable development strategy research, national reform and opening policy in the New Era, and world peace under the international political dynamic; undertake national scientific research projects and social science projects in mainland China and Hong Kong, and provide feasible policy suggestions covering concepts and implementation for major national strategic decisions; undertake various research projects for regional and international organizations to enhance understanding of China, promote intellectual exchanges between China and the world, and encourage globalization.
